

ALBIZIA TREES!

Specific laws exist for albizia and there are additional steps that can be taken.

Problems with other tree species should follow the same notification process.

The Association can send a letter notifying the owner but cannot force compliance. Therefore, Please follow the suggestions below as outlined on the BIISC website.

Don't forget to take pictures and document when and how you reached out for help with the tree(s).

What can you do if a neighbor's tree is a potential hazard?

Try the Good Neighbor Approach first; meet your neighbors, exchange numbers, and explain your concerns. If that doesn't work:

Q: Who Can Help?

A: BIG ISLAND INVASIVE SPECIES COMMITTEE (BIISC)

BIISC provides information here:
